

## Self-service frame slicers

# NEW SELF

- ✓ Maximum safety due to the double cover being locked during the cutting cycle
- ✓ Removable, ergonomic crumb collector
- ✓ Automatic cutting cycle for simplicity of use
- ✓ Easy users guide
- ✓ Front bumper to protect the machine

Up to 250 loaves an hour

### Intelligent Slicing Concept (JAC patent)

Continuous automatic control system that slices loaves according to their consistency. This allows open textured, crusty and dense breads to be sliced with equal efficiency.

### JAC FIX

Holds the loaf together for easier handling at the exit of the slicer.

### Front safety cover

Locked during the slicing process for maximum safety.

### Removable crumb collector

Completely safe. Accessible by tilting the front door. 25 litre capacity.

### Rear safety cover

Closing it initiates the slicing process and it remains mechanically and electrically locked during cutting.

### Option

### JAC STOP (JAC patent)

This patented system holds the bread slices together to facilitate handling.

Option suited to specific types of bread: contact JAC for details.

### Type available "M" system

Micronised knife lubrication system for cutting bread with a high rye content or sticky crumb. Developed by JAC, it consumes the least possible amount of oil (120 ml per 1000 loaves) and delivers consistent cutting quality.

## FEATURES

	NEW SELF 450	NEW SELF 450M 
Max. loaf dimensions in cm (L x W x H)	44 x 31 x 16	44 x 30 x 16
Motor power in kW	0.49	1.1
Net weight (in kg)	210	220
Blade type and dimensions in mm	Steel 13 x 0.5	13 x 0.5, Teflon-coated
JAC FIX	•	•

## CHOICES
