

Product Résumé

MONO Equipment – A Byword for Excellence

MONO Equipment is one of the leading designers and manufacturers of bakery equipment in the UK with a proud heritage which can be traced back to its origins in 1947. Specialising in providing tailor-made solutions to a diverse range of clients, from the small independent artisan baker to the pan-world retail chain, MONO Equipment can supply everything from a simple café oven to a fully-equipped scratch bakery.

MONO Equipment is passionate about quality and all its products are crafted using the very latest, cutting-edge technology combined with time-honoured skills which have been passed down through the generations; exemplifying British craftsmanship at its best.

As you would expect from a company with MONO's pedigree, each product is CE marked and manufactured in accordance with the most stringent British Standards Institute's ISO 9001 requirements; also as a company MONO is accredited with the BSI's Environmental Management

ISO 14001 standard. Furthermore, many of our products are Intertek ETL UL (C & US) and NSF listed specifically for the US and Canadian markets and are suitably designed to run on a 60Hz electricity supply.

In addition to being successful in its own right, MONO Equipment has the backing and support of its parent company, the hugely successful Ali Group; an Italian corporation comprising 77 global foodservice brands spread across 33 countries which employs over 10,000 people. Within the UK, MONO is also part of the AFE Group along with sister companies Millers Vanguard, Serviceline, Falcon Foodservice Equipment and Williams Refrigeration.

MONO Equipment also exports its products to the four corners of the globe via its international network of Official Distributors.

Convection Ovens

MONO manufactures an extensive range of convection ovens, offering a wide variety of tray capacities and tray sizes, starting with a Compact 3-tray café oven up to a new professional 15-tray oven with an integrated Self-Wash facility. A new Cassette Loading System is also available on some models.

Deck Ovens

MONO's highly regarded modular deck ovens can be configured from 1 to 5 decks high and 1 to 3 trays wide providing true flexibility to suit most business requirements. Fixed-deck ovens are also available.

Rack Ovens

MONO's rotary rack oven features an innovative trolley suspension system and is the preferred choice of many of the UK's leading independent, artisan and in-store bakeries.

Bread Plants

MONO's range of Fusion bread plants provides a compact and highly effective solution for automatically dividing, resting and moulding the dough to produce a variety of breads including French baguette.

Roll Plants

MONO's Two-Pocket Roll Plant effortlessly produces up to 3,200 rolls per hour and when combined with the Roll Forming Unit can create a variety of round, finger and hamburger rolls.

Confectionery Depositors

MONO has been manufacturing confectionery depositors for over fifty years and the extensive range now includes the Epsilon Tabletop, the much loved Omega with Wirecut and the new Universal 3DX with 3-colour depositing.

Dough Processing

MONO offers a range of dough moulding equipment including the tabletop Mini Moulder, capable of producing 1,000 pieces per hour, and the Combination Moulder which can produce a variety of moulds including the perfect French baguette.

Doughnut Fryers

MONO's Aztec doughnut fryer is used by a number of supermarket in-store bakeries and produces up to 800 float fried doughnuts per hour with its automatic flip system. Two other models are also available along with an Automatic Jammer for filling the doughnuts with jam or other fillings.
